

Match the Time

a Math review activity

Quarter 'til 5 o'clock

Match the Time

In this activity, your child can practice important time telling skills by matching the pairs of clocks to the correct time.

Assembly Instructions

1. Print pages 3-8. Note: Pages 3–4, 5–6, and 7–8 go together. If you'd like to start with fewer cards, print just one pair of pages
2. Cut out the cards along the dotted lines. There are two kinds of cards: analog clock cards and time cards with the time written out.
3. For extra durability, print on cardstock or laminate

How to Play

1. Shuffle the clock cards and the time cards together.
2. Lay all cards face down in a grid (like a memory game)..
3. Player 1 turns over two cards
 - If the cards show a match (example: a clock showing 4:00 + the “4 o'clock” card), the player keeps the pair and takes another turn.
 - If they don't match, turn them back over, and play passes to the next player.
4. Keep playing until all matches are found.
5. When all the clocks and times have been matched, the player with the most matches wins.

ALL ABOUT[®] Math

We hope you enjoyed this *All About[®] Math* activity

All About Math is a hands-on, multisensory program that introduces key math concepts in a clear, step-by-step way. With built-in review and engaging activities, it gives your student the solid foundation they need for long-term math success.

- Multisensory approach
- Lightly scripted, “open and go” lesson plans
- Mastery-based with no gaps
- Suitable for all ages and learning styles
- 100% guarantee and lifetime support
